The General Demand
of the Well-Informed of the World has always been for a simple, pleasant and efficient liquid laxative remedy of known value; a laxative which physicians could sanction for family use because its component parts are known to them to be wholesome and truly beneficial in effect, acceptable to the system and gentle, yet prompt, in action.

In supplying that demand with its excellent combination of Syrup of Figs and Elixir of Senna, the California Fig Syrup Co. proceeds along ethical lines and relies on the merits of the laxative for its remarkable success.

That is one of many reasons why Syrup of Figs and Elixir of Senna is given the preference by the Well-Informed. To get its beneficial effects always buy the genuine—manufactured by the California Fig Syrup Co., only, and for sale by all leading druggists. Price fifty cents per bottle.

WESTERLY TOWN COUNCIL

**Willing to Permit Norwich Road's Extension on Bridge—
New Agreement with August Larsen Not Recognized—
Plans for Red Men's Pow Wow.**

There was an adjourned meeting of the Westerly town council Monday morning for the main purpose of a public hearing on the petition of the Pawcatuck Valley Street Railway Co. for extension of tracks to connect with the Groton & Stonington. All the members of the council were present except Councilman Saunders. When the session was called there were just a baker's dozen of citizens present, aside from the members. The numbers were increased by five before the hearing closed.

President Clark stated that the hearing was for the people to be heard upon the petition and they were invited to give their views.

Whispering read the petition of the Pawcatuck Street Railway Co. to extend the tracks from the corner of Main and Howe streets to the state line, the center of the Pawcatuck river bridge, to connect with the tracks of the Groton & Stonington Street Railway Co.

Water Price asked if it was the intention of the Pawcatuck road to connect the tracks at once, if the petition is granted.

Judson T. Cousins, superintendent, replied that it was planned to connect the tracks as soon as practicable, but would expect a reasonable time in which to complete the work.

Dr. Scanlon asked if arrangement had been made for the care of the Groton & Stonington road to come into Westerly, as soon as connection was made.

Superintendent Cousins said that nothing had been done in that matter, and that the company he represented had in mind the increase of freight facilities. The passenger traffic would be an after consideration.

Mr. Price did not believe in giving franchises to any company unless the privilege was exercised. If the Pawcatuck road does not exercise the right at once, perhaps the Groton & Stonington road would. No franchise should be granted unless it was exercised.

President Clark said that the last official notice the council had from the Groton & Stonington road was to the effect that the company did not care nor had any wish to extend their tracks into Westerly.

Town Solicitor Kingsley informed the council that the Connecticut road could not operate over the tracks of the Norwich & Westerly road, without special arrangement with that company.

Dr. Scanlon asked Mr. Cousins if he thought the Groton & Stonington road would come into Westerly if the petition were granted.

Superintendent Cousins said that it would seem the company would do so from a business standpoint. Although that company would be willing to run its cars into Dixon square or to the steam railway station, but that the officers of that company have not been approached on the subject.

William Segar favored the granting of the petition, and if there was any objection he would like to hear it, but he did not believe there was any of consequence.

Mr. Price asked if the Pawcatuck Valley road was ready to strengthen the bridge, as was done by the Groton & Stonington company. The Berlin Bridge company was consulted and the Connecticut company was required to put in extra girders and shorten some of the plates to increase the strength. This would cost at least \$1,500, and the cost must be borne by the trolley company.

Superintendent Cousins said the company he represented understood that the bridge must be strengthened and expected to do the work as did the Groton & Stonington company.

Mr. Cousins in reply to a query from President Clark said his company expected to bear its proportionate share of the expense of paving the Western street bridge. The hearing was then closed.

Town Solicitor Kingsley presented a vote granting the petition, provided the Pawcatuck company strengthen the bridge; pave the bridge with vitrified brick granite blocks, as required by statute; that the work be completed by September 1 next, to the satisfaction of the highway committee.

ment. The report was received and ordered filed.

A communication was received from the state board of public roads, calling attention to the fact that the state contractors building a macadam road two miles in length from the Potter Hill road to the White school-house, as-called. This road to be four feet in width, and suggesting that if the town desired a wider road that contract be made with the state board.

Councilman Langworthy stated that the macadam would be fourteen feet in width with three feet of gravel on either side, making the road twenty feet in width, and he considered that ample. The council clerk was requested to notify the state board of public roads that the town of Westerly had no desire to increase the width.

The town solicitor made report in claims for damages from residents of Summer street by reason of overflow of surface water. As these damages occurred prior to 1905, when the street was accepted by the town, there was no liability on the part of the town in regard to the numbering of the houses in that street, the solicitor reported that all had complied except in one instance.

As a probate court the council received the inventory of the personal estate of Ellen M. Burke, in Westerly, which showed valuation of \$120.76. The councilmen are entitled to one-half of the probate fees in this case, which amount to 35 cents to each member.

The council then canvassed the voting list and prepared a list of all citizens liable for jury duty during the ensuing year. After two hours' session the council adjourned.
